The screenshot shows a terminal window with two tabs. The left tab displays configuration files for a system, likely related to authentication or access tokens. The right tab shows log output from an Nginx server, indicating successful connections to an application port.

```
121      # File Access Time specifies a time interval i
122      # The default value is 300 seconds.
123      FILES_ACCESS_TIMEOUT=300
124
125      # Access token expiration time in minutes
126      ACCESS_TOKEN_EXPIRE_MINUTES=60
127
128      # Refresh token expiration time in days
129      REFRESH_TOKEN_EXPIRE_DAYS=30
130
131      # The maximum number of active requests for th
132      APP_MAX_ACTIVE_REQUESTS=0
```
